

We have known the Hon. BILL LYONS of Newport for nearly thirty years; and it would have been difficult for any one to convince us that he could make an ass of himself. When Mr. LYONS supplies the proof, however, we must acknowledge the corn.

BRYANISM appears to have taken deep root in Jessamine and Woodford counties, judging from the nightly raids and destruction of tollgates. These raiders ought to be made understand that while this is a free country there is no freedom to destroy property.

CHAIRMAN SOMMERS of the Silver Campaign Committee is expected to issue an address to the Bryanites of Kentucky, which will urge a continuation of the organization and "show no quarters to the Gold Standard Democrats." It is settled, at least, that they will not show any Free-silver quarters to the Goldbugs.

THERE ought to be fair play in politics as well as everything else, and when the Popocrats denounce GROVER CLEVELAND for selling bonds in time of peace, they are not playing fair. For when the Republicans passed a bill last winter to increase the revenues of the Government so that it would not be necessary to borrow money, the Popocrats defeated it.

EVEN some Preachers were so badly affected with the Free-silver craze that they made further fools of themselves. At Jackson, O., on Sunday the Rev. JOHN OYLER preached a sermon from his pulpit with his clothes turned wrongside out. The Rev. "Oiler" had posted a \$10 bill with DAVID ARMSTRONG as a forfeit if the terms of the bet were not fulfilled, and he said he could not afford to lose the \$10.

HERE is important history in a nutshell:

1890-'92. Protection. Gold Standard. Prosperity.
1893-'96. "Tariff Reform." Disaster.
Gold Standard.

With this picture of the past conspicuously before all eyes, the free coinage advocates keep on declaring that the civilized world's measure of values is responsible for the industrial paralysis and universal business depression of the last three years and a half in the United States. In regard to the reversal of the Tariff policy they are dumb. It is the Gold Standard, they aver, that has done the mischief. But that element was present in both periods, one of prosperity, the other of adversity. Protection accompanied the Gold Standard in 1890-'92. "Tariff reform" is the new element in the period since 1893. It does not require a particularly logical mind to reach the conclusion that the depression since 1893 came about not as a result but in spite of the Gold Standard.

TO CURE A COLD IN ONE DAY
Take laxative Broom Quinine Tablets. All druggists refund the money if it fails to cure. 25c.

A telephone line is to be built from Ashland to Webbville.

City Taxes For 1896.
By special order of Council, I will receive City Taxes for 1896 without the penalty until the first Thursday in December. JAMES W. FITZGERALD, City Treasurer.
Office—Keith-Schroeder Hardware Co.

THE LEDGER'S PROPHECIES FULFILLED.

McKinley's Election Has Restored Confidence and Given a Big Boom to Business.

"Advance Agent of Prosperity."

THE LEDGER was insistent throughout the late campaign that the election of McKINLEY meant the restoration of Confidence and the immediate resumption of Manufacturing and Commercial Business throughout the country.

There were those who contended that the very opposite would be the case.

It is useless now to argue the question; it is settled by the results;—and that our readers may see who was right THE LEDGER will give, from day to day, a partial list of the industries that are reviving under the assurance that the incoming Administration will be friendly to American interests.

NEWCASTLE, PA.

The Rosena Furnace, owned partly by Mark Hanna of Cleveland, was started after several months idleness. The furnace employs about 200 men.

NORWICH, CONN.

The Greenville Cotton Mills, which have been idle since July 3d, have resumed operations on full time and with the full complement of hands. Between 500 and 600 hands are employed.

CAMBRIDGE, MASS.

W. S. Blake, manager of the Union Glass Works here, announced today that the factory would tomorrow commence on full time with 300 employees. The factory has been shut down for three months.

NORWICH, CONN.

Notice was posted at the Falls Company Cotton Mills that operations will be resumed Monday, November 30th. The full force of 600 hands will be employed on a full-time schedule. The mills have been idle since July 17th.

ASHLAND, KY.

The plant of the Ashland Steel Company resumed operations in full today with promise of a steady run for the better part of the remainder of the year. During their long idleness their stock of material has been steadily increasing.

AKRON, O.

The Akron Iron and Steel Company has resumed operations after an extended idleness. In a few days the full force of 350 men will be employed. President H. F. Holloway says he has confidence in the future and the mill will be operated steadily.

THOMPSONVILLE, CONN.

The Hartford Carpet Company, whose factories are located here, have given employment to 100 additional men, making the total number of employees between 300 and 400. A portion of the mill runs on a full time schedule and the rest three days a week.

AMESBURY, MASS.

It is announced here that the Adams & Pettengill Shoe Plant, one of the largest in New England, will resume business January 1st. The firm failed six months ago with \$130,000 liabilities. It is understood that Haverhill capital has been interested and will control the business.

CINCINNATI, O.

Today forty men resumed work at the hydraulic power mill of the Addyston Pipe and Steel Works in Newport. It had been shut down for eight months. One hundred and twenty-five men will be put to work during the week, and within the next month 500 men will find employment at the old scale of wages.

The American Bolt and Nut Works at Newport have also resumed.

MARION, O.

The Steam Shovel Company has increased its force of workmen and advanced the time from eight to ten hours. The Marion Manufacturing Company, manufacturers of threshers and steam engines, will increase its force. The Huber Company, manufacturers of steam engines, one of the largest plants in the city, which closed down the first of last October, resumes Monday in all departments.

NEWARK, O.

E. H. Everett & Co., green glass makers, are already operating three large tanks and preparing another. In Flint glass the local factory of A. H. Heisey & Co. is now running with a full force. The James E. Thomas Company, the largest of several iron foundries, was never busier than since the election. All wholesale houses in the city have sent their drummers out. Harry Henthorne of the local wire cloth mill says: "Business is better than it has been for two months." Swisher Bros. have added 25 cigar makers to their force since the election.

FINDLAY, O.

A force of men is now at work getting the Globe Window-glass Works in readiness for the resumption of work. Bell Brothers' pottery, which had been running about one-third of the time during the last two years, and which had been practically closed down during the summer, started Monday on full time with a full force of hands. The Dalsell Glass Company will next week send their traveling salesmen out to look for orders.

The Findlay Clay Pot Company expects to increase their force one-half. The Salem Wire Nail Mill resumed operations ten days ago, and this week paid out in wages \$5,000 in gold to its employees.

The Kellogg Weldless Tube Company resumed a week ago with a full force of employees, and have given an order for \$20,000 worth of new machinery.

MARLBORO, MASS.

The S. H. Howe Company has decided to start up its "Diamond O" factory which has been closed for more than a year. The reopening of the factory will give employment to about 800 people.

PORTSMOUTH, O.

Owing to the business revival an electric line from Sciotoville to New Boston will be built in the spring. Lumber dealers Cuppett & Webb, H. Leet & Co. and the Portsmouth Planing Mill Company are increasing their forces to meet demands. The Portsmouth Heel Factory and the Patterson Box Factory, that are largely dependent on the shoe factories, have both increased their forces.

DAYTON, O.

Within a few days after the election the National Cash Register Company received from California alone orders aggregating \$20,000. The Kuntz & Johnson Company, contractors and builders, has closed a contract for a new house every day since the election. Charles Whealen, District Manager of the American Strawboard Company, whose mills have run only part time for months, says they will be in operation in full in another week.

DEFIANCE, O.

Next Monday the Turnbull Wagon Works will start with 200 men, after having run but five weeks since last June, and then only giving employment to half their usual force, and running but eight hours a day. A. H. Wood, superintendent of the factory, says that most of the orders they are now working upon were received during the past thirty days, and were conditional on the election of McKINLEY. The Bokop & Webb Carriage Works announce that if business continues to increase they will have to enlarge their factory. The Defiance Machine Works, with extensive markets in Europe, which has been closed for some time, will resume operations within the next fortnight. Geiger & Sons, manufacturers of furniture, will start up their shops next week. The Nightingale Woolen Mills, which closed a month ago, commenced work again with a full force. The Peter Kuhn Lumber Company has been receiving larger shipments of timber since the election than at any time during the past three years. The Defiance Woolen Mills report increasing orders and good indications. The New Manufacturing Company is now employing a full quota of men.

COLUMBUS, O.

The Capital City has begun to feel the effects of McKINLEY's election. The improvement is a reaction from the worst business year in the history of Columbus. Leaving out of the calculation the recent appointment of a receiver for the Columbus Central Street Railway Company, the failures for the year 1896 aggregate \$3,500,000. This is a larger total than the failures for any previous year.

Mr. James Douglas, the local manager for R. G. Dun & Co., was asked what signs of coming prosperity were apparent. He said:

"The general business of this city has very much improved within the last week. In conversation with twenty of the leading jobbing houses within the past two days they almost all report collections better, money easier and orders growing larger. Traveling men are all out, and there is a feeling that business is moving off in a substantially favorable way."

"Take the jobbers. Green, Joyce & Co. say there is no comparison between their business before election and now. They have all their men out. Bancroft, Sheldon & Co.'s collections were better last week than for months before; their orders were more liberal and their business has materially increased. Jones, Witter & Co. report a favorable increase of business. All their men are out."

"Among the clothiers the season is over, but D. S. Ambach & Co. say their sorting-up orders are much more liberal and their collections very much better. Mr. Burgundes of Burgundes Bros. & Co. has just returned from the East. He says there is a tendency toward better prices and customers are buying more freely. In hardware, groceries, notions, etc., there is, without exception, an increase in the volume of business, and finances are easier."

"Among the manufacturers, King, Gilbert & Warner Co., the steel plant, started last Thursday on full time. The Haydens have started their rolling mill, which had been idle, and it, as well as their chair, saddlery and hardware departments, are working full time. They expect to increase their help as

orders come in. They had more orders last week than for the whole three months preceding. Kilbourne, Jacobs & Co. are working full time.

"The Jeffrey Manufacturing Company report a good business. The Buckeye Malleable Iron and Coupler Company were at work before election, as they had a special order for 10,000 couplers, and they are doing a good business. The M. C. Lilley Company, which employs 550 hands, reports collections good. Its business is in regalia, which doesn't feel the change so soon as other lines. Among the new enterprises is the Buckeye Saw Manufacturing Company."

The three year old boy of J. A. Johnson of Lynn Center, Ill., is subject to attacks of croup. Mr. Johnson says he is satisfied that the timely use of Chamberlain's Cough Remedy during a severe attack saved his little boy's life. He is in the drug business, a member of the firm of Johnson Bros. of that place, and they handle a great many patent medicines for throat and lung diseases. He had all these to choose from and skilled physicians ready to respond to his call, but selected this remedy for use in his own family at a time when his child's life was in danger, because he knew it to be superior to any other and famous the country over for its cures of croup. Mr. Johnson says this is the best selling cough medicine they handle, and that it gives splendid satisfaction in all cases. Sold by J. James Wood, Druggist.

B. & O. S. W.

Four daily trains. Only line running solid trains between Cincinnati and St. Louis with Pullman Vestibule Sleeping Cars. All classes of passengers carried on first-class express trains.
To Western Emigrants.—If you are going West, North West or Southwest, write to J. W. McCarthy, Traveling Passenger Agent B. & O. S. W. Railway, (OHIO & MISSISSIPPI RAILWAY) who will quote you lowest emigrant rates on passengers, household goods, stock and emigrant movables to any point in the West, North West or Southwest. Do not make any arrangements for your tickets until you have written or called on him, for it will be to your interest, as rates via the B. & O. S. W. Railway are as low as any other route.
The B. & O. S. W. is the shortest, quickest and most direct route between the East and the West, with no night changes of cars or omnibus transfers. Trains arrive at and depart from Union Depots, and arrive in St. Louis in advance of other lines, giving passengers going West of St. Louis first choice of seats for Western points.
The B. & O. S. W. is known everywhere as the Emigrant's Friend. It does not promise anything that it cannot carry out, and it is the only line that carries you to your destination, and you will save money.
